PRINCIPAL'S MESSAGE

Bismillahirrahmanirrahim

Assalamualaikum Warahmatullahi Wabarakatuh

Alhamdulillah, we have officially completed the fifth iteration of the UNIKLEARN programme. The past two years has been an especially exciting journey in both challenges that were taken on and the wins made.

An-Nur Harapan is no stranger to these challenges. The biggest of all is/was shared by the whole world — the COVID-19 pandemic — which has further exacerbated the daunting task of tackling an already formidable landscape of educating individuals with special needs. Where we thought UNIKLEARN could persist in its own bubble of resuming training, our training team and management have had to find innovative ways to endure. Indeed, the programme did experience some setbacks in terms of training schedule and delivery, fund-raising, and strategic partners' interfacing. 2021 and 2022 UNIKLEARN batches were therefore combined as an overarching solution while remaining conscious about individual needs.

For this, I would like to personally thank the team for their dedication, passion, and persistence in ensuring the continuity of the UNIKLEARN 2021/2022 trainees in their education and training. And to the parents, thank you for your patience and understanding through the adjustment phase and unwavering commitment in sharing any thoughts or concerns regarding your child's progress. You are all a true testament to the slogan, "we are all in this together".

Congratulations to the UNIKLEARN 2021 and 2022 trainees. We have witnessed you grow and thrive in astounding ways. By showing up every day to training and your internships, forming friendships and applying what UNIKLEARN has guided you with, you have reminded us that we only need to listen, guide and watch. It is not a question of whether you are ready for the (outside) world, but if the world is ready to celebrate the amazing you.

Thank you and congratulations once again.

“ I learned customer service, social skills activity, gardening at greenhouse, cleaning campaign, social activity and individual tasks. My favorite is the Social Skills activity sessions. I'd like to say Thank You UNIKLEARN for also teaching job interviews. ”

- Edwin Lai Ren Xin

PARENT TESTIMONIALS

“ First of all, many many congratulations to all trainees ♥️ ”

Al Hamdulillah Ak Waie ♥️ is improving day by day, most visible is his social skills. Waie loves to make friends and interact with others as taught and supported by his amazing peers and trainers. I believe, this is a very useful skill to have as blends his way into society.

To us, the place is more than a centre to help individuals with different abilities to be more independent. They help acknowledge and use their individual strength as well as give respite for the families.

Also, from the bottom of my heart, thank you very much to An-Nur Harapan, all the trainers and sponsors for your utmost support and wholehearted dedication.

Lots of love, Babu Waie

- Dyg Hjh Laila Kamsiah Bte Hj Kassim

“ As a parent to a son with autism, I wondered where my son would go after his Pre-Vocational Program in government school. UNIKLEARN came at the right time to introduce their program; to teach life skills that my son needs – doing chores together, helping others, gardening, do job interviews and even improve his sentences, which were often jumbled up just to get his point out. ”

A unique individual can be polished with a proper technique and UNIKLEARN did that for my son. Thank you UNIKLEARN.

- Hjh Nornajmah Wardati Hj Abd Rahman

“ Continuous improvement can be seen in our child; adjusting the bad habits, building relationship with other trainees and gaining new skills. Our child also has shown a great improvement in time management. ”

As our child have a problem for being impatient, UNIKLEARN have implement a strategy to help him slower down his pace. Thank you UNIKLEARN!!!
